

Technology Enabler of the Year

This Category is open to legal suppliers ONLY

This award recognises that there is little value in implementing technology for technology's sake; rather that technology should be an enabler for those who use it. This legal supplier will demonstrate how implementing a technology solution has enhanced the efficiency, productivity, and effectiveness of their client's business, and/or demonstrated how their technology has delivered an exceptional customer experience.

Criteria:

The winner of this award must have demonstrated over the last 12 months:

- How the technology implementation has enabled a better working environment for their clients and/or the customer journey.
- How a technology implementation has created a quantifiable competitive advantage.
- Originality in the delivery of the technology or the way in which it has enhanced their client's business.
- Firm-wide adoption and "buy-in" in the introduction and use of the technology.

Entrants for this category are strongly encouraged to include a case study to support their submission.
