

Conveyancing Collaborators of the Year

This Category is open to all

A joint submission... Conveyancing is a collaborative process and this award is a test of how well two or more organisations can work together to achieve something special. We're looking for two or more organisations to demonstrate how effective collaboration can improve the client experience, create greater transaction certainty, reduce timescales and maintain fee levels which ensure all sides are operating at a sustainable level. Collaboration is all about working with one another to jointly deliver something that individually is unachievable.

Examples

- Estate agent and conveyancing firm
- panel manager and conveyancing firm
- two conveyancing firms
- technology platform and conveyancer
- two technology platforms

Criteria:

The winners of this award must:

- Evidence a joint collaboration with another provider.
- Outline how the joint collaboration contributed to the delivery of an outcome previously unachievable.
- Demonstrate how the focus of the collaboration remained at the heart of the way in which it was delivered.
- Quantify the success of the collaboration on each of the partner businesses.
- Entrants are encouraged to submit a case study as part of their submission.
- a commitment to continuous professional development and training with demonstrable quality of service and a track record in delighting their clients
