

THE BRITISH
CONVEYANCING
AWARDS 2025

Innovation in Service

This Category is open to legal suppliers ONLY

The submission must state a launch date of the business, product or service and must be on or after 1st March 2023

The conveyancing profession is in the midst of a period of change with digitisation, technology and innovation firmly on the agenda. We have seen an influx of new products and services from start-ups to established market players, across searches, identity and anti-money laundering tools, onboarding and case management apps, end-to-end transaction progression services, and much more.

The Innovation in Service award recognises a new business, product or service introduced in the last 24 months. The successful submission will identify how the product or service is innovative in its design, tackling the big issues in conveyancing, with clear engagement from the conveyancing profession. The product or service will demonstrate how it improves the lives of conveyancers, other stakeholders and/or the home-mover.

Criteria:

The winner of this award must demonstrate:

- How the concept of the product or service was conceived; what market research/experience was undertaken? When did the product launch?
- How the product or service has a positive impact on the lives of conveyancers and/or home movers.
- Evidence of investment and innovation to deliver an exceptional product or service.
- A clear development plan to enhance the product or service offering.
